

Creating an Account and Purchasing Courses

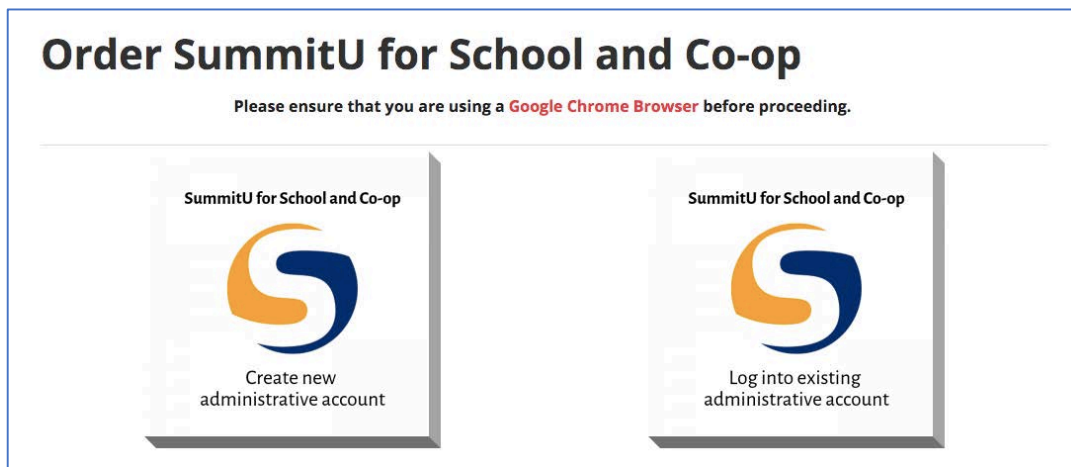

1. Beginning at understandingthetimes.com in a *Google Chrome Browser*, navigate to the “Order” page using the menu at the top of the page.
2. **On the order page**, select the version you will need:
 - School/Co-op** for 3+ Students, 1+ Teacher, and perhaps multiple course sections.
 - Homeschool** for 1-3 Students, 1 Teacher, and a single course section.

If you have 3 or less students in your course, please select the **Homeschool Version**. You will be sent directly to the homeschool account creation page. Just fill out all details requested (which will include credit card payment and courses desires) and submit. You will receive an email with your login credentials and information on how to get started. Please disregard the steps below! Your setup process is complete.

For the School/Co-op Version, you will next be asked whether you have a current account to log in to. If your school has ever used a SummitU Course, there is a school account on file and you must not create another one. If your school has an account but you are unsure which email address it is under, please reach out with school name, zip code, and phone number to utt@summit.org.

3. If you selected the School/Co-op option, you will be directed to the following set of options:

- a. **Create New Administrative Account**, you will be directed to fill out the account creation page:
